We are passionate about our coffees, the varieties, the origins, the blends and of course the roasting. We are also committed to making sure we offer a consistent service when it comes to roasting your coffee for you, and to this end have developed a numbering system for the different profiles available as the standard naming of roast profiles can leave things a little ambiguous and down to an individual's interpretation. We therefore suggest that when looking to have your coffees roasted, to please select between 1-7 for your preferred profile. Please also be mindful that not all coffees will work best by colour and that if you require assistance in selecting the right profile for your chosen coffee, to make contact with us where we will be more than happy to assist you.
